

# Dealer Solutions

## Management Software for the Independent Dealer

Every dealer works hard to be successful. Dealer Solutions Software Suite has been a part of customers success for over 10 years. Dealer Solutions provides high quality professional grade car dealer software coupled with a revolutionary dealer marketing interface. Not only do we provide state of the art dealership management solutions for inventory, customers, deals, BPH and LPH accounts, we provide dealers with the ability to market their cars through their own custom dealership website and with data feeds to all major internet marketing sites such as AutoTrader, Craigslist, and Cars.com.

Dealer Solutions Software is the information hub of your dealership. With countless interfaces and flexibility the information that was entered one time can turn around and be pushed to multiple other sources including paperwork, websites, reports, letters, mailers, emails, text messages, and more. Dealer Solutions Software is a powerful tool ready to take any sized dealership and help create a successful operation.
